

“Ann Creative Corner”

Project #30: Racoons!

- Trace and cut the racoon body parts.
- Glue onto construction paper to form the shape of the Racoon.
- Add in details by hand using felt non-toxic washable felt makers or crayons.
- Add sticker eyes if you like.
- Add some string or wool for fur.
- Add details into the picture by adding trees (racoons love to climb trees).
- Add some flowers, grass and food. Racoons like fruits and vegetables.
- Racoons like to wash their food too so you may want to add a stream or river.
- Be creative; what can you think of? Sun, moon, stars at night.....
- Paint shapes on easel.

Talk about safety around racoons as they are very strong and can be dangerous to yourself or other pets. Discussion on keeping garbage items sealed and put into secure bins as racoons like to be scavengers too!

Enjoy!
