

“Ann’s Creative Corner”

Project #20: Dinosaurs!

- Cut out dinosaur shapes of various types of dinosaurs.
- Talk to children about the names of the types. Some of flying, land and sea creatures. (in words of song)
- Glue the dinosaur shapes onto paper.
- Colour, draw eyes, toenails etc. Be free about how the children decorate these as it is their own ideas.
- Use sparkles, use string, wool, fabric (some snake skin type and leather look would be good).
- Trace a large footprint as shown; it doesn’t have to be perfect.
- Use Bingo dabbers to decorate it, colour in some toenails or whatever the children think of. Make a stopping song for the feet (Charlotte Diamond).

Make a felt story as shown (words to the song are attached)

Look up “Dicky, Dicky Dinosaur” by Charlotte Diamond who is a local singer from Richmond. She has CD’s available and probably some online music. She is excellent!
