Project #50: Father’s Day Foot Prints

- Paint child’s Foot with yellow paint.
- Holding Child for security press foot or feet onto some construction paper.
- Let dry and add detailing if you like such as toe nails etc.
- Have the children “Sign” their name. It is okay if they do not know how to write it. Their signature is the stage they are at.
- Add some other drawings around the foot shape.
- Look for the design of the paper shown below or create it yourself on your computer.

Glue the Footprint paper onto Construction Paper when done.

If the child does not want painted feet, try hand prints. Try tracing the child’s feet is another idea!
