

## “Ann’s Creative Corner”

### Project #63: Camping Fun!

- Gather some newspaper flyers or magazines.
- Cut out some of the “Tents” “Outdoor Chairs”, “Umbrellas”, Wagons, and other camping type equipment.
- Create your own camping scene with the cut out pictures by gluing them onto construction paper.
- Using Crayons or non-toxic felt markers, draw in details such as trees, grass, small animals, large animals or anything else you may see in a camp ground.
- Add the lake or a river.....
- Details for the sky being daylight or evening.
- Think of what you can imagine.....
- People talking, children playing, boats, sports etc.

### Camping Trip:

If possible, go camping and pitch a tent. If that is not possible bring a pop up tent to the beach or field. Go camping in your back yard or on your patio. Camping inside using a pop up tent is fun to do too. Make a “Fort” with blankets and props around chairs or other furniture to create the “tent” space. Bring some toys in your tent. Dolls, bedding, and outside your “Tent” can be cars, trucks and a Roadway idea.
