

## Ann's Creative Corner

### Project #81: Large Squirrel

- Cut out a large squirrel shape.
- Add some paper leaves by gluing with a glue stick.
- Take some dried leaves that you could gather from outside. Crunch them up and sprinkle onto the squirrel for a textured effect.
- Add some wool details with the glue stick or liquid non-toxic glue.
- Add eyes by drawing them, googly eyes, sticker eyes etc.
- Add some details to the paws such as toe lines.
- Draw some nuts in the Squirrels paws.
- Make a large mural with a bunch of the Squirrels and add some trees and earthy designs. Sky, birds, sun, rain etc.

### Activity:

Go for a nature walk. Observe the squirrels. What colours do you see. Are they in trees? How do they sit? How do they run? What is the tail like? Pretend to be a squirrel.
