

“Ann’s Creative Corner”

Project #44: Clouds

- Cut out various shapes for Clouds.
- Using glue stick attach to a piece of blue construction paper.
- Create a scene of the sky and clouds.
- Add sun, birds etc. to sky.
- Add the ground features which can be houses, people, trees, flowers, animals, water, grass etc.
- Use some various textured paper like tissue paper and maybe bubble wrap for water.

Go for a walk and observe nature and the clouds. Lay down on the grass and view the changing clouds.

Refer to the Felt Story posted on our Facebook page: “Sometimes it looked like Spilt Milk”

Easy to make the story yourself: improvise the shapes and make your own.

Also, can copy images from the hard copy book and follow along at the same time doing felt story and book. Good for the visual needs of the Children.
