

## “Ann’s Creative Corner”

### Project #45: Starry Night!

- Create some small stars (they don` t have to be perfect)
- Glue stars onto dark blue construction paper.
- Add some chalk swirls for the night sky.
- Add the moon.
- Maybe use some glitter glue for shining stars.
- Make the Big Dipper Shape.
- Add some ground details like a field of grass.
- Include your home.
- Make a City.
- Add the Ocean, River or whatever comes to mind.
- Children can create their own ideas.
- Maybe add people by drawing or using magazine pictures.

**Activity:** Take an evening walk on a clear night. If you see the stars and the moon, it will most likely be a sunny day tomorrow!

**Song:** Twinkle, twinkle Little Star”
