

“Ann’s Creative Corner”

Project #49: Vehicles!

- Make the shape of vehicles such as cars, trucks, rescue vehicles, or construction site type
- Make and cut out shapes for doors, windows, pipes and tools that may need to be part of the vehicle such as a Fire Truck may have tools showing.
- Using a glue stick, create your vehicle.
- Add details with non-toxic felts and crayons.
- Add some shiny paper to reflect the lights, sirens and metal on the wheels.
- Tin foil, coffee foil, birthday wrap, cellophane paper are all good to use. Use the scraps of left over paper to be more environmentally friendly.
- Bingo dabber may be good to add details to the wheels.
- Some shapes of stickers could be used as well
- Be creative. Imagination. Make roads.....

Song: “Wheels on the Bus” “Car” “Ambulance”, “Fire Truck”

Horn, siren etc go beep, beep, woo woo!
