

## **Ann's Creative Corner**

### **Project #77:**

- Create an Acorn Shape out of construction paper.
- Draw some detailed lines as shown in the attached photo.
- Children can be creative and design it themselves with felts or crayons. Any Lines will do! Be creative!
- Using a glue stick; add some natural items like Fall Leaves, Seeds (note in the photo) that you may find on the ground too.
- Try adding crumpled tissue paper.
- Paint it!
- Use Bingo Dabbers on it!
- Add straw or dried grass!
- Maybe add paper cut out shapes or leaf shapes onto it.

### **Activity:**

Go on a nature walk. You may find some acorns on your walk. If you use play dough at home; use the acorns as an imprint by stamping them into the playdough.

Try taking the top off the acorn; it is like a little hat!
