Project #113 Chinese Lanterns 2

- Create the lantern shape from construction paper or poster board.
- Draw the curved lines to give the lantern an 3D look.
- Add sparkle, stickers, felt marker, crayons, bingo dabbers, pom poms, tissue paper, metallic ribbons etc. to the lantern
- Next secure the top and bottom by adding another strip of paper for decoration.
- After placing some scotch tape on the top, punch two holes with a hole puncher.
- Attach a shiny ribbon or string through the holes and tie.
- Hang to decorate.
- Think about creating some smaller lanterns and creating a Mobile by attaching them to a wire hanger, pole or stick.

Activity:

Go to Chinese Outdoor Markets or the Mall to view the various items for Chinese New Year!
