Project # 107 Valentines Caterpillar

- Cut out various colours of small hearts from construction paper.
- Cut out a leaf large enough to glue the hearts on it with a consecutive chain to make the caterpillar. Glue hearts together with a glue stick onto the leaf shape.
- Add some eyes with either drawing them, sticky eyes or googly eyes with some white liquid glue.
- Add some legs to the caterpillar.
- Add some colours through the sequins to decorate the caterpillar with "Spots".
- Draw lines or anything else you think the caterpillar would look like. Be Creative!
- Maybe glue the leaf onto another piece of paper to create a Valentines Card.

Use some of you caterpillars in a board story or make a felt story:

"5 Little Valentine Caterpillars"

5 Little Caterpillars wiggling down a vine,

The First one said: My this is Fine!

The second one said: Let's Climb, Climb, Climb

The Third one said: Let's be on Time!

The Fourth one said: Please be Mine!

The Fifth one said: That would be fine!
