

Ann's Creative Corner

(project Provided by Kids Care Preschool)

Project #122 Daffodils

- Fold a piece of construction paper lengthwise into 3 sections.
- Cut some green stems and leaves from construction paper.
- Cut some Daffodil Star Type shapes from Yellow construction paper.
- Have some small various colours of cupcake papers for daffodil center. Most common are yellow and orange center but you can be open to other colours and patterns on the cupcake papers.
- Glue the stem onto the folded construction paper then the leaves on to the stem.
- Glue the Daffodil Star shape onto this. You can also paint the Star shape yellow.
- Add the cupcake paper on top of the painted area by gluing it on or it may stick to the paint..... Maybe a little white glue will be best.
- When done, connect the folded construction paper into the 3D triangle shape and staple in place. This will allow the daffodil to standup!
- Make a few, create a garden!

Activity:

Go for a nature walk. Daffodils are blooming now!

Song with Actions: (Tune - Are You Sleeping)

See them Growing, See them Growing,

Way UP High, Way Up High,

Always in the Springtime, Always in the Springtime

Yellow Daffodils, Yellow Daffodils
