

Ann's Creative Corner

Project #132: Fans

- Using various colours of paper with or without textures, draw onto the paper your own design. Paper should be letter size approximately.
- Next folder the paper back and forth to create the "Folds" in the paper. These folds should be around 1-2 cm. wide.
- Staple the bottom in a "pinching effect"
- Next wrap some masking tape around the stapled area to make the "handle" smooth and easy to grasp.
- At this point you could add more detailing such as a few small stickers.
- Possibly add a small tail/s on the handle part as it would be a flowing effect.

Activity:

Fan Dance: (tune "Jump up and Down")

(Play some music and dance with your fan).

Fan Up, Fan Down, turn it around.

Fan right, Fan Left, jump up and down.

Fan over, Fan Under, look here, look there.

It's as easy as one, two, three!

(go faster and slower)
