

## Ann's Creative Corner

### Project #192: Birds

- Cut a paper plate in half.
- Add some details to the half plate by colouring it the colours you would like your bird to be
- Next glue on some feathers.
- Add some sticker eyes, draw them or use googly eyes.
- Think about making some extra wings by attaching them to your bird.
- Attach a string to hang the bird.
- Create a mobile to hang up with many birds (use smaller half plates or cut your own half circles to form your bird).
- Try bingo dabbers to colour your paper plate and let dry before adding the details.

### Action Game: (Fly Away Little Birdie)(chant)

Fly away little birdie, way up to the sky  
Come and tell me dear birdie who taught you to fly,  
Jamie taught Jessie to fly.

Children take turns flying and bringing a friend back to the adult.  
Younger children may like to “Fly” from the adults lap while taking turns.
