Project #196: Hot Air Balloon!

- On a plain piece of white construction paper or poster board, place some cloud shapes that you cut out of some thinner paper. Use some minimal tape as these will be taken off the paper.
- Sponge paint with some blue paint over this.
- Peel clouds off carefully.
- Let this dry.
- Create a hot air balloon shape out of some more construction paper and glue it on.
- Make your designs on the balloon shape with felt markers
- Add a basket.
- Add some details to your sky.
- Ideas can be airplanes, birds, sun, rain, rainbows or just plain colour streaks.

Activity: Observation

Go for a walk and view the sky. How many planes do you see. How many clouds. What are the shapes of the clouds. Try laying down on the grass and observe what you see. Take a trip to the Planetarium if you can.
