Project #197: Fish in a Waterfall

- On a plain piece of white construction paper or poster board, paint some blue and green stripes on your paper. A sponge brush would work nicely for this.
- Paint your hand white and add your hand prints to the bottom of the paper.
- Let this dry.
- Next, paint some fish or you may want to make your fish separately and glue them on with a glue stick.
- Create your fish with some coloured paper and add some details to them such as the colours, eyes, fins.
- Another idea would be to use some sticker fish for the younger toddlers and preschoolers.
- You may want to add some texture to your picture such as glueing a light sprinkling of sand or powder may look like sand.....

Activity: Aquarium Visit or Beach Walk

Go to the Vancouver Aquarium and see the various types of fish. If you do not have access to this, go for a natural walk to the beach. Step into the warm puddles when the tide is out. It is quite amazing to see the little fish and crabs scurry about around your feet. Collect some shells while you are there.
