Project #218: Halloween Mobile!

- Make a mobile with your favorite Halloween Items.
- Cut and draw spooky items.
- Place some scotch transparent tape onto the top.
- Punch a hole with a hole puncher into the taped area. (this makes it stronger so it will not rip)
- Thread some thin string or ribbon through each shape and tie it securely.
- Find a stick from outdoors if you can. Let it dry a bit.
- Attach your Halloween items to this.
- Think about adding some cotton to it to make it look more spooky!
- Any other kind of stick could work as well, such as chopsticks, old wooden frame pieces, etc.

Activity:

Go out on a windy day with a few of your dangling items and watch them blow in the wind. Look for chimes that may be halloween related. Go to a Dollar store to see what you may find...
