Project #209: Horn of Plenty

- Create a horn shape as shown below.
- From construction paper of various colours, create some fruit and vegetable shapes.
- Draw some curved lines on your "Horn of Plenty Shape" to give it some depth. Children can draw any lines they wish as it does not have to be the same.
- You may also want to draw some details onto your fruit and vegetable pieces.
- With a glue stick, glue the fruits and vegetables onto your "Horn of Plenty".
- You could also use real pictures from magazines or catalogues.
- Maybe you could find some pictures on product boxes and wrappings. These could be used in your collage of pictures.

Activities: Go shopping for fruits and vegetables. Visit a farm. Go for a walk and look at community gardens. Read books on fruits and vegetables.

Cut up some fresh fruits and vegetables for a snack plate. Talk about the nutrition facts. Eat them fresh and raw! Flavour!
