

Ann's Creative Corner

Project #211: Harvest Collage

- Cut out various fruits and vegetables from various colours of construction paper.
- Glue onto another piece of construction paper.
- Encourage children to add details to their fruits and vegetables by using crayons and felt markers.
- Add some texture to the collage by using some tissue paper of many colours.
- Add texture by using some foam type paper or any other paper that may add interest and depth to your collage.
- Cut out real pictures of fruits and vegetables from magazines and glue some onto your paper.
- Be creative! Children that can use scissors can cut bits and pieces of paper or cut out their own shapes of fruits and vegetables. They do not have to be perfect. Just explore and create.
- Think about other things to make..... A mobile of hanging fruit...

Activity:

Go to the Vegetable Market.

Go to a Farm to view or buy fruits and vegetables
