

## **Ann's Creative Corner**

### **Project #212: Fall Texture Poster**

- Cut out various sizes and shapes of leaves.
- Find some textured items such as straw, tissue, seeds (from fruit you eat)
- On a large poster board, create your poster board.
- Glue leaves, texture and seeds on the poster board in any way you like.
- Add more details with crayons, felt markers, paint, bingo dabbers or other coloring ideas you may think of.
- Add sky and ground details.
- Think of some Fall Animals that may suit your poster.
- Magazine pictures can be glued on.
- Draw animals, birds and trees.
- Trees with leaves and Falling Leaves would be good to put on your poster.

#### **Activity:**

Fall Walk: Go walking in your neighborhood to view what you may find. Look in the rain and you will find mushrooms. Be sure to explain not to touch the mushroom as many mushrooms in the rain are poisonous.
