

## Ann's Creative Corner

### Project #242 Snow Play!

- Outdoors look for some areas of snow and other natural items.
- Scoop up the snow with containers.
- Bring your items to a central area and place them on the ground or on a table or in a large container.
- See what you can do!
- Add some bingo dabbers to colour the snow.
- Use some plastic tools such as Hammers and saws and see how they work with the snow.
- Step into the snow and see what kind of footprints your shoes make. They are different sizes and shapes.
- Try a Hand print in the snow.
- Shake some sparkles into the snow.
- Try writing with chalk on the wet ground.
- Make a "Sand" castle shape with the containers.
- Sprinkle some sand onto this and you may get a "Sand Castle"
- Think of using leaves and branches in your creation.

**Activity:** Use your creation of snow and items for songs. Make some words up. Maybe think of things like "Going on a Nature Hunt"

Going on a nature hunt, going on a nature hunt

Going to have some fun, going to have some fun.

Oh Look What I See! Snow!

Oh Look What I See! Twigs

Rocks, Leaves, Soil etc.....
