Project #260: Faces and Hats

- Create a head shape of various colours.
- Create various hat shapes for construction workers or other types of hats are good as well.
- Glue the hat onto the head.
- Add some wool for hair.
- Add facial details using your own drawing and maybe some sticker eyes or googly eyes for the children. Sticker eyes for toddlers as googly eyes can be a choking hazard.
- Add details to your hats as well such as police, fire fighters, ambulance drivers, hard hats for construction workers.

Activity:

Go for a walk and view some construction sites. Talk to the workers if possible. Notice the safety signs, first aid portable etc. Read books on Construction or other types of jobs that require work gear and hats. Garbage truck is another idea. "Trashy Town" is a good book to read to young children. It is repetitive in language as well as teaches good habits.
