

Ann's Creative Corner

Project #251 Chinese Dragon Puppets

- Create the head shape of a dragon.
- Cut out shapes as shown below for the Dragons mouth, eyes and ears.
- Cut some shiny paper into strips.
- Assemble your dragon's face using a glue stick.
- Then turn your dragon over and place some glue on top and bottom part of your Dragon Head.
- Attach the shiny paper strips as this will be the beard and the top hair of the dragon head.
- Next take a large Popsicle type stick and secure it onto the Dragon head with tape. Scotch tape works well for this.
- Tissue paper strips could also be used instead or with the shiny strips.
- Be creative and add some other details such as some sparkles!

Activity:

Add this to your Chinese Parade while Marching Around. Do a puppet show of your choice using your Dragon Heads. Sign and march. Use instruments as well! Talk about what this Chinese New Year is about!
