

Ann's Creative Corner

(Project by Kids Care Preschool)

Project #264: Fish!

- Create a fish shape by cutting it from construction paper.
- Add some shiny scales with some paper sequins by glueing them on.
- Add some fin details with lines from a crayon or felt marker.
- Add a sticker or googly eye or draw the eye yourself.
- Add some tissue paper onto your fish as seaweed that it may be in.
- You could place your fish onto another piece on paper and add the seaweed and water details.
- Paint or bingo dabbers can be fun before adding the sequin details. Let it thoroughly dry first before placing the sequins onto your fish!

Activity: Pet Store, Aquarium, or Beach/Riverwalk

See what you can find in the water. In the warm puddles of the Ocean, you can walk in them and find tiny little fish scurrying around.
