

Ann's Creative Corner

Project #267: Clouds!

- Cut various cloud shapes out of white paper.
- Glue these onto another piece of blue or grey paper.
- Create your sky of clouds.
- Add details such as lines in the clouds.
- Add some more colours with a small sponge paint or thin paint brush of grey or blue paint.
- What else is in the sky?
- Sun, birds, aeroplanes, helicopters, kites etc.
- Make a cloud mobile by cutting our small clouds and hanging them from a stick, rod or pipe cleaner.
- Add some cotton to your clouds to give it a soft and fluffy feel!
- Maybe think of rain and clouds.
- The sunshine would be nice with the clouds.
- Rainbows are with the sun, rain and clouds.....

Activity: Go outside on a dry but cloudy day, lay on the warm grass and look at the clouds as they go by. What shapes do you see?

Book:

"Little Cloud" by Eric Carl.
