(Project by Kids Care Preschool)

Project #284: Hot Air Balloons!

- Create balloon shapes of many colours out of construction paper.
- Fold each colour in half lengthwise.
- Glue together 2-3 balloons to create your 3D Hot Air Balloon shapes.
- Next use a small square of construction paper for the basket shape. This can include the Straps (two at the top) to glue onto your balloon shape.
- Another idea would be to attach the basket shape by some string or even create a 3D basket to attach.
- Add a small person on items into the basket area. Stickers can be used for this as well.
- Place onto your wall with an arrangement of fluffy clouds. Cotton balls could work for this as well as plain white paper clouds.
- Add more details into the sky.....

Activity: Walk and see what you find in the air..... planes, birds, balloon advertising is sometimes seen as well. Play with some balloons in a safe way. Balloons should be covered in a nylon stocking for safety. Balloons are a choking hazard for children especially under the age of 8 years old.
