### Project #299: Fish!

- Create a variety of fish shapes of various colours.
- Add some details to your fish such as the eyes, scales, fins etc with your felt markers or crayons.
- Bingo dabbers are nice for this type of fish too as when you blend the dots together, it may look like the scales of the fish.
- Try sticker eyes or googly eyes if you like.
- Bubble paper is really nice for the texture of the fish.
- Tissue paper is also good for texture or even strips of it for "Seaweed" on your fish.
- Make small and large fish.
- Small fish could be used hanging from a stick as a mobile too. Any type of stick could be used such as a clean outdoor branch, a popsicle stick, or maybe a pipe cleaner too.

### Song: "Have you ever Gone a Fishin!"

Have you ever gone a fishing on a bright and sunny day,  
Have you ever seen the fishes swimming up and down the Bay?  
With their hands in their pockets and their pockets in their pants.  
Have you ever seen the fishes do the Hula Hula Dance!  
You never have and you never will!
