

## **Ann's Creative Corner**

### **Project #322: Balloon Art!**

- Create a balloon Shape
- Cut out some various shapes from your scrap paper.
- Cut out some circles from some wall paper or other patterned craft paper.
- Supply some pens and stickers and other bits of decoration type materials.
- Glue on some streamers at the bottom of the balloon. The plastic ribbon can be nice for this or some shiny ribbons or any other type of non toxic ribbon will be fine.
- Decorate your balloon shape in any way you like.
- Draw on the shape.
- Add a tie to the top of the balloon if you like by punching a hole into the top and tying some light ribbon into this. Tip: cover the area with a small piece of scotch tape before punching the hole as it will make it stronger so as not to rip

#### **Activity: Outdoor Play!**

Go outside and “Fly” your balloon shapes by waving them, running with them, dancing with them etc.
