Project #324: Ladybugs!

- Using two different size circles create your bug shape on some construction paper as shown below.
- Glue this shape onto another piece of paper.
- Make the larger circle again and cut it in half as this will be the wings of the ladybug.
- Glue the wings onto the body leaving the smaller circle free as it is the head of the bug.
- Add some eyes and mouth to the head part of the ladybug.
- Add some dots to the wings.
- Add 6 legs if you like by drawing the legs.
- Add some antennas by drawing them. The photo of the real ladybug does show they have feelers or antennae.
- Add more details to your bug as you like.
- Please be free to let the toddlers and Preschoolers to create their own ideas. Sometimes they will even pull the pieces off and on.
- Add details to the page such as grass or trees, sky etc.

Chant: Lady bug, Lady Bug (with actions)
Ladybug, Ladybug , On my arm (actions)
Ladybug Lady Bug, On My Knee (actions)
Lady Bug, Lady Bug, on my Toes! (Actions)
Lady Bug, Lady Bug, (think of other ways)
Lady Bug, Lady Bug, Come fly with me. (Actions)
