

## Ann's Creative Corner

(project by South Van Family Place)

### Project #333: Pizza Pictures!

- Create a round circle out of construction paper.
- You could also create a square or rectangle pizza!
- Cut out some shapes for the meats, cheeses and vegetables you may like to put on your pizza.
- Glue the shapes onto the pizza.
- Add some texture to the pizza by adding some tissue paper for cheese or cloth or string for details such as cheese and spices.
- Some powdered Paint could also add some detail.
- Tiny cotton ball pieces may add some texture as well.

#### Activities:

Make your own pizza! Create the dough or buy some pizza shells. Add whatever you would like such a tomato sauce first, then the cheese and then the meats, veggies and possible fruits like pineapple pieces are great for a pizza! Bake in the conventional oven (not microwave)  
Enjoy!

“I am a Pizza” Song!
