Ann's Creative Corner Project #334: Sports/Fitness Collage!

- Gather some pictures from magazines and flyers that reflect Sports Ideas!
- Cut around them. They don't have to be detailed cutting but just a general circle, oval, square or rectangle around the picture.
- Older children can do this themselves.
- Younger toddlers may practise snipping small pieces of scraps.
- When Preschool children are cutting, be sure to precut the paper a little smaller as it is easier for them to grasp and manipulate the paper.
- Glue your pictures onto a piece of paper.
- Think about drawing something around the pictures.
- Some children may want to draw a picture of a room or yard or beach etc first.
- Adding the pictures after the drawing is a good idea.

Activities:

Enjoy the sports of your choice! Look at the items in the picture that the child makes and see if it is something that you may do with family and friends.

Go to the gym or Community Centre or events!
