Project #379: Dragons 2!

- Make some copies of various dragon prints.
- Attach construction paper to the back of the print.
- Cut around the shape of the Dragon.
- Add details to the dragon with Felts, Crayons, shiny stickers, glitter etc.
- Place two popsicle sticks at the bottom and tape them onto the dragon.
- Colour the sticks if you like.
- Think about the scales of the dragon. Maybe using some textures on the dragon such as glueing bubble paper on, adding sandpaper pieces would be good for the scales of the Dragon.
- Maybe some "Fire" out of the dragon's mouth could be red shiny paper or orange.....
