

Ann's Creative Corner

Project #402: St Patricks Day!

- Let's create shamrocks, a pot of gold and leprechauns today!
- Using some yellow construction paper, create a pot pot shape with two handles on each end.
- Cut this out for the children or children can cut this if they are capable. For younger Toddlers, adults can prepare the shape.
- Glue your "Pot of gold" onto another piece of construction paper. Green would be nice for this.
- Using glue sticks and gold sparkles decorate your pot of gold. You may also like to use liquid gold sparkles.
- Place another pot of gold across from this one.
- Draw a rainbow between the pots of gold.
- If you have a leprechaun sticker, place the leprechaun in your creation.
- Add some lucky 4 leaf clovers into your creation.
- Fill in some sky details if you like.

Activity:

Go for a walk and see if

you can find some clover in the grass. Look for a lucky 4 leaf clover!
