Project #406: Dance Ribbons and Movements!

- Purchase some plastic ribbon at Home Depot or use some fabric ribbons from home (If using fabric ribbon, make them ribbons fairly short for younger children so they do not get tangled in them as it could be a choking or tripping hazard)
- Make a loop with a pipe cleaner and secure it by twisting together.
- Tie the ribbons to this and secure with a knot.
- Another idea is to use a long tongue depressor or smooth stick like a longer popsicle stick.
- Tape the plastic ribbon onto this and then tie it in place.
- Also you may want to use some small triangles as scarves.
- Finish the edges with a sewing machine or use lightweight fabric triangles that will not fray at the edges.
- Please be sure not to use long pieces of fabric or long ribbons as they are a choking and/or tripping hazard.

Activity:

Use the ribbons for dance activities such as “I Put My Scarf on My Head” song, the “Hokey Pokey” and other action songs or music you may like. Have a dance party!
