

## Ann's Creative Corner

### Project #424: Ice Cream Cones!

- Create a cone shape from some beige construction paper.
- Create a variety of ice cream scoops of various colours.
- The ice cream can be in various shapes as well and don't need to be perfect.
- On another piece of paper, glue the cone down and add as many of the ice cream shapes as you like.
- This could be done without the base paper as well and just use the cone and the ice cream!
- Add some drizzles of liquid glue to make your cone loop like it is melting.
- Add some chips of paper for "chocolate chip" or candy chips etc.
- Try some sparkles!
- Draw lines on your cone to make it look like a Waffle Cone.
- Try making the ice cream in a dish shape.
- Add a spoon shape to your creation.

#### **Activities:**

GO for an Ice Cream Day!

Shopping in the store.

At an ice cream stand.

At your favourite restaurant or take out place.
