Project #440: Starfish!

(by South Vancouver Family Place)

- Create a starfish shape out of construction paper as shown below.
- Children can draw a face on their Starfish first.
- After that, add some stamps of fish shapes and ink pads.
- When that is done, you may like to use some small bingo dabbers.
- Think about adding drops of glue and some sand onto your starfish.
- Try a few sparkles or sparkle glue is easy to use.
- If you would like to make many smaller starfish, they could be pasted onto a piece of construction paper in a bed of the ocean.
- Add some green strips of paper for the seaweed.
- Add some wavy lines to your water!
- Bubble paper also may look nice in the water area of this collage!

Chant: Octopus (add actions as you like)

Octopus, Octopus Squiggling in the water.

Octopus, Octopus, Squiggling in the sea.

Octopus, Octopus, Swim, Swim, Swim.

Octopus, Octopus, Floating in the water,

Octopus, Octopus, Floating in the sea,

Octopus, Octopus, Swim, Swim, Swim!
