### Project #436: People Around The World

- Cut out some people's shapes of various colours.
- These shapes could be joined together.
- Create a circle for the earth.
- Add some earth details such as land and water.
- Glue your various people shapes of various colours all around the earth shape.
- Fill in some details on your people, before or after glueing them onto the Earth.
- Add your favourite flag to the earth to show where you live or were born.
- Around your earth you could also add more drawings of things you like to do.
- Another idea is to make a collage of people of Various cultures and dress.
- Add some texture to your Earth shape with some sand for soil and maybe some bubble paper for the water.
- Tissue paper is great for texture on your planet Earth!

**Activity:** Go for a walk and view the various lifestyles of people. Try a multicultural festival.

**Song:** May there always be Sunshine by Charlotte Diamond.
