Project #442: Summer Fun: Beach!

- Water is your favourite Beach Activity?
- Let's do some drawings of the beach, the sand and fun toys!
- Add some texture to your beach picture with some real sand and dried seaweed from the beach.
- Do you use buckets and shovels? Add some pictures or stickers so it is a collage as well.
- If you have some bubble wrap paper it is nice to use for the ocean!
- Try using some plastic wrap for the water.
- Tissue paper is nice for the seaweed.
- Construction paper for logs and sticks.
- If you have some small shell stickers, these would be good for your collage
- Add photos of family and friends.

Activity:

Go to the beach and collect some beach items. If you get some seaweed, let it dry out and use this in your collage. You could also press the seaweed between newspapers to flatten it and dry it out.
