### Project #464: Rain and Clouds!

- Make some cloud shapes, raindrop shapes.
- Children can glue these onto another piece of construction paper to form a scene or collage.
- If children can use scissors, they may like to help form their own simple pieces such as the clouds.
- Use some cotton to glue onto the clouds if you like, tissue paper is another option.
- Try using some dabs of white paint on your clouds.
- Confetti may add a nice touch to your clouds.
- Children may also use markers or crayons to add details to their creation. This is their creation so let them be free to choose what they like. Some children may only put on a piece or two while others like more detail. Some children may create something completely different and that's okay too!
