Project #479: In Flanders Fields

- Create a field of poppies.
- If you like, place crosses on the fields in remembrance of the soldiers from the past.
- Poppies can also be made from Construction paper and a straw or Popsicle stick attached to them.
- This may be placed in a box with a foam or playdough base.
- Try various types of paper too, such as tissue paper to create some texture to your field of poppies.
- Add the sky if creating your field on a piece of paper.
- Try doing this project as a group of children or family members.
- You may know someone that is to be remembered in the past war times.
- Remind children and family members how important this Special Day is.

Poem: In Flanders Fields
