

Ann's Creative Corner

Project #503: Winter Collage!

- Collect pictures from magazines, flyers and calendars.
- Cut them out for a collage.
- Children can help with this. Keep in mind that the children may have their own ideas.
- Some children may just want to rip pictures. That is fine too and creative.
- Glue the pictures or pieces of pictures in any way you like onto another piece of paper to create your own unique collage!
- Add more details with cotton, drawing, sparkles, paint etc.
- Try making a collage using shapes as well as you could create a scene of a house.
- Try adding some mountain shapes.
- Add some stickers of people or animals.
- Draw some simple birds by using the "m" shape.

Activity:

Go for a walk to see what you find on a snowy day to get ideas for your collage. What is at the Riverfront for example. Walk in your neighbourhood. Walk in the park or a safe forest area.
