Project #500: Snowmen!

- Cut out various sizes of white circles from some construction paper on writing paper.
- Arrange these in a snowman stack with as many or as little circles as you like.
- Glue together with a glue stick.
- Add pieces of paper to create the hat, arms, legs, feet etc. to glue on
- Try adding some cotton for snow.
- Add some string for hair.
- Add shapes such as a carrot for a nose, circles for buttons, etc.
- You may also like to use paper plates, coffee filters or other circular paper to create various sizes and shapes of snow people.

Activity:

If it's snowing, build a snowman. If there is no snow, make some snow with some crushed ice. Look at pictures in magazines or calendars for snowmen.
