Project #509: Chinese New Year Lanterns 2!

- Here is another version of the Chinese lanterns!
- Fold red construction paper in half lengthwise.
- Cut even strips from the fold centre line to within one inch or 2 centimetres from the end. Do not cut through the end.
- Decorate this as it is laying flat with stickers, sparkles and drawings.
- Add some glitter or shiny paper to the bottom in strips.
- Open paper and curve the paper in reverse to make your lantern shape.
- Staple, glue or tape this in the lantern shape.
- Add some String or ribbon to the top to hang your lantern.

Activity: Songs with your lantern. Do some actions while singing and swaying your lantern. Ideas may be dancing to a festive Chinese music song or dance.
