

## Ann's Creative Corner

### Project #515: Valentines, Valentines, Valentines!

(Kids Care Preschool and South Van Family Place)

- Please see the attached for a variety of ideas for Valentines Day!
- Various paper, sparkles, stickers, felt markers, crayons, hole punchers etc.
- One idea is to create a heart shape, punch holes along the edges and then thread some lightweight thin string or ribbon through the edges. Wrapping type ribbon is great for this. Please secure you edges with tape before punching holes so it will not rip when the children and you are threading your valentine.
- Try threading two Valentine Hearts together.
- Ideas are endless with your hearts..... collage, cards, games, cookie making, cupcakes, mobiles etc.

**Activities:** Fun games and songs are great. Cup cake or Cookie walk: Play music and when the music stops step on a Heart. Play this game until there is only one heart left and you win!
