Project #529: Spring Flowers!

- Cut out some green stems and leaves from some scrap paper.
- Children can use a glue stick to form the basis for the flowers by glueing them onto another piece of Springtime Construction paper.
- Add the various shapes of petals to form the flowers at the top.
- A cupcake paper works nicely for Daffodils as you may glue the cupcake paper into the centre of your stems to form your flower shapes.
- Add details with felt markers and crayons.
- Use a QTip for light painting.
- Add some sprinkles of sparkles to make it pretty and reflective. This can be used as the "Sun" shining on your flowers!
- Think of other ways such as your hand print could also be a stem
- Try painting your fingertips and adding the fingerprint to the top of your stems.
- Add details to your fingerprint flowers with a felt marker when the paint is dry!

Song/Chant: (Tune: Are you Sleeping)

See them growing, See them growing
From the ground, From the ground.
All the Pretty Flowers are here.
All the Pretty Flowers are here.F
Flowers are here, Flowers are here!
