Project #527: St. Patrick's Day Pot of Gold!

- Create a Pot of Gold Shape from Black Construction paper.
- Older children may be able to cut this out if they are capable of following the lines with scissors.
- Younger children will need precut "pot of gold" shapes. Maybe the older children can help with this.
- Cut some round yellow circles for the "Gold"
- Using a glue stick children may glue the yellow circles onto the Black Pot.
- Add some Gold Sparkles!
- Round shiny gold stickers may also be used for this.
- Younger toddlers may like the stickers and the Sparkle glue!
- Add some Lucky Clover to your pot!

Activity: Look for some St Patrick's Day Books and Songs to share with your children.
