

Ann's Creative Corner

Project: #703: Construction!

- Provide children with various shapes to create some houses, buildings, high rise, and low rise buildings
- Provide a poster board or piece on construction paper for the children's own creation.
- Children may make their own or it would be a great group project!
- Use many colours and shapes.
- After gluing pieces onto the board or paper, children may fill in some details with felt markers, pencils or crayons.
- Add some other details such as the trees, flowers, land and other things like the rivers and oceans.
- Make sure to add the natural skyline and nature type animals and birds too.
- Stickers are okay for this, especially for the younger toddlers

Song: Elevator! (actions such as raising child up and down)

Oh the city is big, Oh the city is Grand!
There are lots of tall buildings on a little piece of land.
And we live upstairs on the 57th floor,
This is what we do when we go outdoors!
We take the elevator up, we take the elevator down.
We take the elevator up, we take the elevator down.
We take the elevator up, we take the elevator down.
And we turn around!
