

## Ann's Creative Corner

### Project #720: Bees and Bee Hive!

- Create a bee hive shape.
- Add some details to this by drawing various lines on it to appear circular or maybe just a 3D look with some scrunched tissue paper.
- Provide the children with some bee shapes or stickers.
- Yellow paper is nice to use as a basic bee shape.
- Another idea is to make this from waxed paper as the bees wings could be waxed see through paper.
- If you would like to make a larger bee, provide the children with the head, body and wing shapes so they may create their own bee.
- Try black and yellow strips of paper for a bumble bee.

### Song: Hickety, Tickety Bumble Bee!

Hickety, tickety bumble bee,  
Can you say your name for me  
(Child says their name)

“**Mary, Mary** and that a very nice name”

Go to the next child and repeat.
