### Project #725: Fish Projects!

- Cut out the basic shape of a fish.
- Add some details using drawing with felt markers.
- Add some scales with the markers or use paper shapes such as to imitate the scales of the fish.
- Cut out some fin shapes.
- Glue this together in any way you like.
- Add some tissue paper for seaweed.
- Add googly eyes or sticker eyes or draw them
- Bingo dabbers may also be used for a nice look of blending the scale look.
- Sparkles and shiny paper would also be a nice touch.
- Try some bubble paper for the scales.
- Try some waxed paper or clear food wrap for some texture.
- Add some confetti or small left over circles from hole punching.

**Song or Chant:** Three Little Fish (actions with fingers or puppets)

Three little fish went swimming one day.

Into the sea and out of the waves.

One little fish went swimming away.

And only two little fish were left to play.

Two little fish went swimming one day

Into the sea and out of the waves

One little fish went swimming away.

And only one little fish was left to play.

One little fish went swimming one day

Into the sea and out of the waves.

The last little fish went swimming away.

And there were no little fish left swimming that day!
