(Kid's Care Preschool Activity)

Project #749: My Name and My Letter!

- Cut out large shapes of letters from construction paper of various colours.
- Children may choose the colour they like for the first letter of their name.
- Provide some shapes of paper or some magazine cut out pieces or some calendar pictures.
- Children may glue on the pictures or shapes they like.
- Add their full name to the front or the back of this project.
- If the children can write their own name, please have the children do this printing.
- If you like, you may write it clearly first and they can copy it or parts of it.
- Be sure to use a Capitol letter in the beginning and then the small letters for the body as this is the correct form for their name.

Songs: Phonics are great for this as they can sing the letters and pronounce them at the same time. Phonics ideas will be posted on Facebook soon. Also repeat singing the ABC's consistently.
